HI LAKE
PROJECT

After 20 years of use, a renovation of the METRO Blue Line Lake Street/Midtown Station is coming soon.

Changes are being made to provide more consistent and reliable access for all users, including:

- New, larger elevators that will be closer to Lake Street bus stops.
- Wider stairways, removing escalators.
- A new, outage-proof pedestrian ramp from the street level to the station on the south side of Lake Street.
