

## Metro Transit is hiring Inventory Control Specialists (Stockkeepers)

Metro Transit stockkeepers are our inventory control specialists. They are responsible for the receiving, warehousing, and issuing of all parts, supplies, and commodities used by Metro Transit to maintain its fleet of revenue vehicles.

Stockkeepers support all 13 warehouse and maintenance facilities. Stockkeepers work 5 days per week and cover 3 shifts during each of those 5 days. They control over 15,000 stock keeping units (SKUs) with more than 75,000 combined SKU/warehouse locations. The current standing inventory these stockkeepers control is over \$50 million. Last year stockkeepers performed over 580,000 inventory transactions whose dollar value was over \$600 million.

Metro Transit is one of the country's largest transit systems, employing more than 3,200 people, and provided nearly 78 million rides in 2019 through an integrated network of buses, light rail, and commuter trains. In 2016, Metro Transit was named System of the Year by American Public Transportation Association.
